Co-facilitators' informal note
on
Sharm el-Sheikh mitigation ambition and implementation work programme

SBI 65 and SBSTA 65 agenda item 6

Version 14/11/2026 6:00

This note has been prepared by the co-facilitators under their own responsibility and has no formal status. The note does not prejudge further work or prevent Parties from expressing their views at any time. It does not represent agreement among Parties and is without prejudice to the text that will form the basis for negotiations.

{***Overall structure of CMA decision***}

Option 1: Recalling decision 4/CMA.4, decides to continue the Sharm el-Sheikh mitigation ambition and implementation work programme

Option 2: Elements below

Option 3: Decides to conclude the work programme

{Preambular}

1. *Recalling* the Paris Agreement[, including Article 2 and Article 4, paragraphs 4, 5, 7 and 15],

2. *Also recalling* decisions 1/CMA.3, 4/CMA.4, 4/CMA.5, 2/CMA.6 and 13/CMA.7,

3. [*Recalling* decision 4/CMA.4, paragraph 1, in which it was confirmed that the objective of the Sharm el-Sheikh mitigation ambition and implementation work programme shall be to urgently scale up mitigation ambition and implementation in this critical decade in a manner that complements the global stocktake,]

4. [*Recalling* decision 4/CMA.4, paragraph 2, in which it was decided that the work programme shall be operationalized through focused exchanges of views, information and ideas, noting that the outcomes of the work programme will be non-prescriptive, non-punitive, facilitative, respectful of national sovereignty and national circumstances, take into account the nationally determined nature of nationally determined contributions and will not impose new targets or goals,]

5. [*Recalling* decision 4/CMA.4, paragraph 3, in which it was decided that the work programme shall function in a manner that is consistent with the procedures and timelines for communication of successive nationally determined contributions established in the Paris Agreement, recalling Article 4, paragraph 11, of the Agreement and decision 1/CMA.3,]

6. [*Recalling* decision 4/CMA.4, paragraph 4, in which it was decided that the scope of the work programme should be based on broad thematic areas relevant to urgently scaling up mitigation ambition and implementation in this critical decade and include all sectors covered in the *2006 IPCC Guidelines for National Greenhouse Gas Inventories* of the Intergovernmental Panel on Climate Change, thematic areas in the contribution of Working Group III to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change, and relevant enabling conditions, technologies, just transitions and cross-cutting issues,]

7. [*Recognizing* the importance of the best available science for effective climate action and policymaking,]

8. [*Noting* the assessment of the Intergovernmental Panel on Climate Change that the impacts of climate change will be much lower at a temperature increase of 1.5 °C compared with 2 °C,]

9. [*Reaffirming* the nationally determined nature of nationally determined contributions,]

10. [*Recognizing* that Parties have different starting points, capacities and national circumstances,]

11. [*Highlighting* the importance of capacity-building support for developing countries,]

12. [*Recalling* decision 1/CMA.7, paragraph 7, in which it was underscored that the risks and impacts of climate change will be much lower at a temperature increase of 1.5 °C compared with 2 °C and in which the resolve to pursue efforts to limit the temperature increase to 1.5 °C, to limit both the magnitude and the duration of any temperature overshoot, and to close adaptation gaps, was reiterated,]

13. [*Noting with alarm* the findings of the 2026 synthesis report on nationally determined contributions[1] that, while nationally determined contributions demonstrate that Parties have progressed in strengthening climate policies and implementation frameworks, the collective level of ambition and projected emission reductions remain substantially insufficient in terms of keeping the 1.5 °C goal under Article 2, paragraph 1(a), of the Paris Agreement within reach,]

14. [*Recognizing* the need for urgent action and support for achieving deep, rapid and sustained reductions of greenhouse gas emissions in line with pathways to achieving the 1.5 °C goal, noting that finance, capacity-building and technology transfer support are critical enablers of climate action,]

15. [*Noting with serious concern* the findings of the United Nations Environment Programme *Emissions Gap Report 2026* that the latest nationally determined contributions submitted and under implementation fall significantly short of the global greenhouse gas emission reductions required to return to a pathway consistent with limiting global warming to 1.5 °C above pre-industrial levels,]

{Expression of appreciation to the co-chairs, host countries and the secretariat}

16. *Expresses appreciation* to the co-chairs of the Sharm el-Sheikh mitigation ambition and implementation work programme and the secretariat for organizing the two global dialogues and investment-focused events held under the work programme in 2026;

17. *Also expresses appreciation* to Parties and non-Party stakeholders including experts for their contributions to the discussion under global dialogues and investment-focused events;

18. *Further expresses appreciation* to the Governments of the Republic of Korea and Australia for hosting the seventh and eighth global dialogues and investment-focused events respectively in 2026;

{Reflection on progress under the work programme}

19. *Welcomes* the progress in the implementation of the work programme in 2023–2026, including through:

(a) The provision of a platform for discussions among Parties and stakeholders, enabling focused exchanges of views, information and ideas, including on best practices, opportunities, challenges, barriers and actionable solutions across sectors including cross-sectoral issues related to the topics discussed at the global dialogues and investment-focused events;

(b) The provision of networking opportunities for participants in the global dialogues and investment-focused events, including experts, financiers, practitioners and other stakeholders;

[1] FCCC/PA/CMA/2026/9.

(c) The initiation of providing opportunities for matchmaking between project proponents nominated by Parties and financiers and development partners;

(d) Improvements based on collective experience in implementing the work programme, including with regard to the organization of the global dialogues and investment-focused events;

(e) The publication of the annual reports on the work programme;

20. [*Notes with concern* that the activities undertaken under the work programme during 2023-2026 were not sufficient to achieve the objective of the work programme of urgently scaling up mitigation ambition and implementation in this critical decade in a manner that compliments the global stocktake;]

{Outcomes of the seventh and eighth global dialogues}

21. *Notes* the focused exchange of views, information and ideas at the global dialogues and investment-focused events held in 2026 on the topic of enabling mitigation ambition and implementation in industries, drawing on national and regional experience, and cross-cutting issues, noting that the topic was decided by the co-chairs of the work programme;

22. [*{Placeholder: Organization of and discussions at the annual high-level ministerial roundtable on pre-2030 ambition}*]

23. *Also notes* the key findings, opportunities, barriers, actionable solutions[, scale and drivers] summarized in the 2026 report, recognizing that they do not represent an exhaustive summary of all views and regional priorities or the full diversity of national contexts, capacities and challenges [, including:

- {placeholder: potential contents proposed by Parties in annex}]

24. *Emphasizes* that addressing the key findings, leveraging the opportunities, overcoming the barriers and considering the actionable solutions referred to in paragraph X above is voluntary and can be enabled by country-specific action in the light of different national circumstances, international cooperation and the mobilization of financial, technology and capacity-building support for developing countries; that there is no single solution that fits all contexts; that not all of the opportunities, barriers and actionable solutions are applicable to every national or regional context; and that opportunities and challenges will vary in accordance with national circumstances, development stage and priorities, as well as the diverse pathways followed by different countries;

{*Duration*}

25. *Decides* that the work programme will continue [up until [2030][2031][2040]];

26. *Requests* the Subsidiary Body for Scientific and Technological Advice and the Subsidiary Body for Implementation to consider the progress under and effectiveness of the work programme at their [seventieth sessions (June 2029)][seventy-second sessions (June 2030)] [seventy-fourth sessions (June 2031)] [seventy-eighth sessions (2033)] [eighty-second sessions (2035)] with a view to recommending a draft decision [thereon][on the continuation of the work programme] for consideration and adoption by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement at its [eleventh session (November 2029)] [twelfth session (November 2030)] [thirteenth session (November 2031)] [fifteenth session (2033)] [seventeenth session (2035)];

{***Objective***}

Option1

27. *Reaffirms* that the objective of the work programme is to urgently scale up mitigation ambition and implementation in this critical decade in a manner that complements the global stocktake;[2]

Option2

27. *Decides* that the objective of the work programme is to urgently scale up mitigation ambition and implementation in this critical decade;

Option3

27. *Decides* that the objective of the work programme is to urgently scale up mitigation ambition and implementation;

{Principles}

28. *Reaffirms* that the work programme shall be operationalized through focused exchanges of views, information and ideas, noting that the outcomes of the work programme will be non-prescriptive, non-punitive, facilitative, respectful of national sovereignty and national circumstances, take into account the nationally determined nature of nationally determined contributions and will not impose new targets or goals;

29. *Also reaffirms* that the work programme shall function in a manner that is consistent with the procedures and timelines for communication of successive nationally determined contributions established in the Paris Agreement, recalling Article 4, paragraph 11, of the Paris Agreement and decision 1/CMA.3;

30. [*Decides* that the work programme will provide guidance and actionable messages to support Parties in identifying opportunities, overcoming barriers, strengthening implementation of mitigation actions and enhancing international cooperation, in a bottom-up and nationally determined manner;]

31. [*Decides* that the work programme should recognize the importance of social and environmental safeguards in mitigation action, including for achieving just transitions that are people-centred and promote decent work, gender equality, the empowerment of women, and respect for the rights of Indigenous Peoples, including free, prior and informed consent;]

{Scope}

32. [*Reaffirms] [Decides*] that the scope of the work programme should be based on broad thematic areas relevant to urgently scaling up mitigation ambition and implementation in this critical decade; include all sectors covered in the *2006 IPCC Guidelines for National Greenhouse Gas Inventories* of the Intergovernmental Panel on Climate Change and the thematic areas covered in the contribution of Working Group III to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change [and the contribution of Working Group III to the Seventh Assessment Report of the Intergovernmental Panel on Climate Change]; and relevant enabling conditions, technologies, just transitions and cross-cutting issues[, the state of global mitigation ambition and implementation, mitigation elements of previous decisions of the CMA, including the outcome of the first global stocktake, the Global Climate Action Agenda, the UNEP Emissions Gap Reports and the synthesis reports on nationally determined contributions, including information relevant to the formulation and implementation of nationally determined contributions];

[2] As confirmed in decision 4/CMA.4, para. 1.

{Topic selection and organization of work}

Option 1

33. *Invites* Parties, and observers and other non-Party stakeholders to submit via the submission portal[3] suggestions for topics in line with the scope of the work programme by 1 February 2027 [and every year thereafter][for a multi-year period];

34. *Decides* that the co-chairs of the work programme, taking into consideration the submissions referred to in paragraph X above, will decide on the topic[s] to be discussed at the global dialogues and communicate them by 1 March 2027 [and every year thereafter][for a multi-year period];

35. *Invites* Parties, and observers and other non-Party stakeholders to submit via the submission portal by 1 April 2027 and every year thereafter suggestions for sub-topics based on the topics communicated by the co-chairs as per paragraph X above, and views on best practices, opportunities, challenges, barriers and actionable solutions relevant to the topic for that year[, noting that the submissions may include:

(a) [Information on areas with significant emissions and areas with high mitigation potential;]

(b) [Relevant information on the formulation and implementation of nationally determined contributions;]

(c) [Information on regional circumstances;]

(d) [Suggestions regarding the experts and financiers and investors to be invited to participate in the global dialogue[s] and the investment-focused event[s];]

35 bis. *Decides* that the co-chairs of the work programme, taking into consideration the submissions referred to in paragraph xx above, will decide on and communicate the sub-topics to be discussed at the global dialogue[s] and investment-focused event[s], [ensuring that all sectors addressed in the *2006 IPCC Guidelines for National Greenhouse Gas Inventories* of the Intergovernmental Panel on Climate Change are covered over time for the duration of the work programme], and communicate them at least four weeks prior to the dialogue and event concerned;

Option 2

33. *Invites* Parties, and observers and other non-Party stakeholders to submit by 15 February 2027 views on the sequence of topics and sub-topics to guide the preparation of the multi-year workplan for the work programme referred to in paragraph xx below, in line with the scope of the work programme;

34. *Requests* the secretariat, under the guidance of the co-chairs of the work programme, to prepare a draft multi-year workplan for the work programme on topics, taking into account the submissions from Parties and non-Party stakeholders referred to in paragraph xx above, for consideration by the subsidiary bodies at their sixty-sixth sessions (June 2027) with a view to the subsidiary bodies recommending a draft decision thereon for consideration and adoption at CMA 9 (November 2027);

35. *Invites* Parties, and observers and other non-Party stakeholders to submit via the submission portal by 1 February 2027 suggestions for topics to be discussed under the global dialogues and investment-focused events to be held in 2027 in line with the scope of the work programme;

35 bis. *Decides* that the co-chairs of the work programme, taking into consideration the submissions referred to in paragraph xx above, on the topic[s] to be discussed at the global dialogues and communicate them by 1 March 2027;

35 ter. *Invites* Parties and non-Party stakeholders to submit via the submission portal by 1 April 2027 and every year thereafter suggestions for sub-topics and views on best practices,

[3] https://submissions.unfccc.int.

opportunities, challenges, barriers[, new and emerging issues] and actionable solutions relevant to the topic for that year;

35. quater. *Decides* that the co-chairs, taking into consideration the submissions from Parties and non-Party stakeholders referred to in paragraph xx above, will decide on the sub-topics for the global dialogue[s] and investment-focused event[s] and guiding questions for the discussions and communicate them at least four weeks before the dialogue and event concerned;

Option 3

33. *Invites* Parties, and observers and other non-Party stakeholders to submit views via the submission portal by 1 April 2027 on the overarching topics and sub-topics to guide the preparation by Parties of the workplan for the work programme referred to in paragraph xx above, in line with the scope of the work programme, for consideration and adoption at CMA 9 (November 2027);

34. *Decides* that the global dialogue and investment-focused event will be organized in accordance with decision 4/CMA.4 in 2027, including the submissions on the topic and sub-topics;

35. *Also decides* that the current co-chairs of the work programme will continue in their role until at least 31 December 2027;

{Timeline and location of global dialogue and investment-focused event}

Global dialogue

Option1

36. *Decides* that one global dialogue [, of two to three days in duration,] will be held every year in [conjunction with] [prior to] the first regular sessions of the subsidiary bodies for the year [, while avoiding their pre-sessional period];

Option 2

36. *Decides* that two global dialogues [, each of two to three days in duration,] will be held every year, [one] [prior to] [in conjunction with] [the first regular sessions of subsidiary bodies for the year] [, while avoiding their pre-sessional period[s],] and the other [prior to the second regular sessions of the subsidiary bodies for the year][, while avoiding their pre-sessional period[s]] [, noting that the global dialogue may be held in conjunction with existing events, such as climate weeks, in lieu of the first and second regular sessions of the subsidiary bodies at the discretion of the co-chairs of the work programme];

36 bis. [*Decides* that the annual topic under the work programme will cover the global dialogue held in conjunction with the second regular sessions of the subsidiary bodies for the year and the global dialogue held in conjunction with the first regular sessions of the subsidiary bodies in the subsequent year so that reports on two global dialogues held on the same topic can be compiled and included in the annual report on the work programme;]

Investment-focused event

Option 1

37. *Decides* that one investment-focused event will be held every year in conjunction with the second regular sessions of the subsidiary bodies for the year;

Option 2

37. *Decides* that two investment-focused events will be held every year, in conjunction with the first and second regular sessions of the subsidiary bodies for the year [, noting that the investment-focused events may be held in conjunction with existing events, such as climate weeks, in lieu of the first and second regular sessions of the subsidiary bodies at the discretion of the co-chairs of the work programme;]

37 bis. [*Decides* that each investment-focused event will be informed by the outcomes of the preceding global dialogue, including the best practices, opportunities, actionable solutions, barriers, challenges, support needs, and available financial, technical and capacity-building support;]

{Modalities of the global dialogue and the investment-focused event}

38. *Requests* the secretariat to organize, under the guidance of the co-chairs of the work programme, the global dialogues and investment-focused events in such a manner as to:

(a) Facilitate inclusive, geographically balanced participation and the effective engagement of participants, including virtual participants;

(b) Facilitate regional and gender balance among the participating experts [and facilitate, in the context of inclusivity, the participation of representatives of Indigenous Peoples, local communities, financial institutions, scientific research institutes and civil society organizations];

(c) Facilitate the understanding by participants of regional perspectives;

(d) Facilitate the identification of [structural] barriers that hinder access to finance and investment[, including the provision of finance];

(e) [Facilitate the identification of best practices, opportunities and actionable solutions for urgently scaling up mitigation ambition and implementation];

(f) [Facilitate the continuity of discussions held at previous global dialogues and investment-focused events];

(g) [Facilitate the engagement under the work programme of relevant constituted bodies and work programmes under the Convention and/or the Paris Agreement, including the operating entities of the Financial Mechanism and the constituted bodies under the Technology Mechanism, as well as multilateral development banks and other financial institutions and private sector entities, by inviting their representatives to participate in the global dialogues and investment-focused events and present information on their activities relevant to the work programme, in line with their respective mandates and resources;]

(h) [Facilitate the engagement under the work programme, including on preparing for the investment-focused events, of relevant multilateral development banks and other financial institutions; multilateral climate funds, including the Green Climate Fund and the Global Environment Facility; the Climate Technology Centre; and private sector entities;]

(i) Facilitate matchmaking between project developers, technical partners and finance providers, including by:

(i) [Facilitating the engagement under the work programme of relevant multilateral development banks and other financial institutions, project preparation facilities, multilateral climate funds, the Climate Technology Centre and other relevant entities on identifying support needs, as well as facilitating the engagement of project proponents, including in advance of the investment-focused events on the proposed project, as appropriate;]

(ii) [Facilitating the development by developing countries of project pipelines, including preparing or improving project concept notes for submission to financiers, technology providers and capacity-building providers;]

(iii) [Building on existing country platforms, technical assistance programmes and project preparation facilities;]

39. [*Requests* the secretariat to document, under the guidance of the co-chairs of the work programme, the projects presented at the investment-focused events on the UNFCCC website, and prepare a report on the status of these projects;]

40. [*Requests* the secretariat to maintain, under the guidance of the co-chairs of the work programme, a contact list of experts who participated in the global dialogues and investment-

focused events, subject to prior informed consent of the experts and applicable data protection requirements, noting that contact details may be shared with Parties only for the purposes expressly agreed by the expert concerned;]

41. [*Requests* the secretariat to prepare, under the guidance of the co-chairs of the work programme, [and in cooperation with relevant experts, as appropriate,] a technical background note [, including case studies,] on the topic for global dialogues and investment-focused events, to be made available on the UNFCCC website prior to four weeks before the dialogue and event;]

42. [The NMA Platform may be used to record projects identified under the work programme {placeholder: SBSTA65 agenda item 11(b)}]

{Other activities}

43. [*Decides* that in addition to the global dialogues and investment-focused events, other in-person, hybrid [or virtual] dialogues may be held each year, including [regional dialogues and investment-focused events][workshops][and][events focused on promoting peer-to-peer exchange] [to follow up on the discussions held at the previous global dialogues and investment-focused events][to support the preparation of projects for funding, including developing and improving project concept notes for submission to financiers, technology providers and capacity-building providers] [in conjunction with existing events, such as climate weeks and the annual meetings of the International Monetary Fund and the World Bank Group], noting the need to ensure inclusive and geographically balanced representation of participants;]

44. [*Requests* the secretariat, under the guidance of the co-chairs of the work programme, to facilitate the development by developing countries of project pipelines, including preparing or improving project concept notes for submission to financiers, technology providers and capacity-building providers;]

{Output}

Option 1

45. *Requests* the secretariat to continue to prepare, under the guidance of the co-chairs of the work programme, an annual report that reflect in a comprehensive and balanced manner, the discussions held at the global dialogues and investment-focused events, including a summary of the [key findings,] opportunities and barriers relevant to the topic, for consideration by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement at each of its sessions;

Option 2

44. *Requests* the secretariat to prepare, under the guidance of the co-chairs of the work programme, an annual report that reflects, in a balanced manner, the discussions held at the global dialogues and investment-focused events, including [key messages] [actionable calls related to] [a synthesis of] [a summary of] the key findings, [best practices,] opportunities, [actionable solutions,] [challenges,] [support needs] and barriers identified [, including those related to finance, technology development transfer and capacity-building,] relevant to the topic for consideration by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement at each of its sessions [and at the annual high-level ministerial round table on pre-2030 ambition];

Option 3

44. *Requests* the secretariat to prepare, under the guidance of the co-chairs of the work programme, a report on the global dialogues [held in conjunction with the first regular sessions of the subsidiary bodies for the year], including a summary of the key findings, opportunities and barriers relevant to the topic, [and make it available no later than eight weeks before the next investment-focused event], and a report on the investment-focused events [held in conjunction with the second regular sessions of the subsidiary bodies];

{*Governance*}

45. *Requests* the subsidiary bodies to consider, taking into account the annual report referred to in paragraph xx above, [progress in implementing the work programme] [key messages, including key findings, opportunities, barriers, enablers of mitigation action] with a view to recommending a draft decision thereon for consideration and adoption by the Conference of Parties serving as the meeting of the Parties to the Paris Agreement [at each of its sessions] [at its session at the end of the duration of the work programme];

46. [*Invites* Parties and observers to submit via submission portal by xx, following the publication of each annual report on the work programme, views on the global dialogue and investment-focused event of that year with a view to informing the consideration of a draft decision by the Conference of Parties serving as the meeting of the Parties to the Paris Agreement;]

47. [*Requests* the Chairs of the Subsidiary Body for Scientific and Technological Advice and the Subsidiary Body for Implementation to appoint, well in advance of the sixty-sixth sessions of the subsidiary bodies (June 2027) and every two years thereafter, in consultation with the respective regional groups and constituencies, two co-chairs for the work programme, one from a developing country Party and one from a developed country Party;]

48. [*Decides* to establish a technical committee on mitigation to enhance the coherence and coordination of efforts to urgently scale up mitigation ambition and implementation, including the sharing of information, best practices and lessons learned on mitigation policies, measures and enabling conditions, in the context of keeping 1.5 °C within reach][, *invites* Parties, and observers and other non-Party stakeholders to submit their views via submission portal by xx on the modalities of work, functions and expected outputs of the technical committee and *requests* the subsidiary bodies to develop the modalities of work of the technical committee for consideration and adoption by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement at its ninth session (November 2027);]

49. [*Decides* to establish a mitigation support facility to facilitate the provision of support from developed country Parties to developing country Parties, in line with Article 9, paragraph 1, of the Paris Agreement and to support developing country Parties in addressing the negative impacts of unilateral trade measures;]

{Linkages with other processes and workstreams}

50. *Recalls* paragraph 17 of decision 13/CMA.4 and *invites* the co-chairs of the work programme to continue making presentations on the annual report on the work programme at the annual high-level ministerial round table on pre-2030 ambition;

51. [*Invites* the annual high-level ministerial round table on pre-2030 ambition to discuss the same topic as that selected for the work programme for each year;]

52. [*Invites* the annual high-level ministerial round table on pre-2030 ambition to discuss how the outcomes of the global dialogues can be translated into accelerated implementation of mitigation action by each Party and how international cooperation on mitigation action can be promoted on the basis of those outcomes, with its results to be considered by the Conference of Parties serving as the meeting of the Parties to the Paris Agreement at each of its sessions;]

53. *Notes* that the annual reports referred to in paragraph xx above will be made available for the global stocktake;[4]

54. [*Requests* the secretariat to make the annual reports on the work programme available as an input to the second global stocktake by 28 February 2027;]

55. [The relevant outcomes of the global stocktake to inform the work programme;]

56. [*Agrees* that activities under the work programme shall be organized to coincide with the timelines of the global stocktake and the communication of successive nationally

[4] Consistently with the modalities set out in section I of decision 19/CMA.1.

determined contributions,[5] such as by considering the barriers to implementation of the mitigation-related outcomes of each global stocktake in the planning of the work programme, including in the selection of topics for and the framing of the dialogues;]

57. [*Agrees* to strengthen the linkages between the work programme and the global stocktake and the preparation of successive nationally determined contributions, while respecting the nationally determined nature of national determined contributions;]

58. [*Clarifies* that, in complementing the global stocktake, the work programme provides a platform for Parties to exchange views, information and experience relevant to accelerating mitigation ambition and implementation, including on opportunities, barriers, enabling conditions and solutions relevant to the mitigation outcomes of the global stocktake, without prejudging or prescribing nationally determined actions or outcomes;]

59. [*Agrees* that under the work programme, Parties shall be supported in formulating and implementing their nationally determined contributions;]

60. [*Encourages* relevant constituted bodies and work programmes under the Convention and/or the Paris Agreement, United Nations organizations and specialized agencies, representatives of regional and international support programmes, bilateral and multilateral agencies and multilateral development banks to consider the outcomes of the work programme in planning their work, in line with their respective mandates and resources;]

61. *Recalls* paragraph 6 of decision 13/CMA.7, in which the Board of the Green Climate Fund and the Council of the Global Environment Facility were invited to consider supporting projects identified in relation to the activities under the work programme in line with their mandates and governing instruments, as appropriate;

62. *Also recalls* paragraph 10 of decision 13/CMA.7, in which Parties were encouraged to record projects that they identify under the work programme on the NMA Platform;

63. [The NMA Platform may be used to record projects identified under the work programme {placeholder: SBSTA65 agenda item 11(b)}]

64. *Takes note* of the estimated budgetary implications of the activities to be undertaken by the secretariat referred to in paragraph[s] [X] above;

65. *Requests* that the actions of the secretariat called for in this decision be undertaken subject to the availability of financial resources.

[5] See Articles 4, para. 9, and 14 of the Paris Agreement, as well as decisions 19/CMA.1, 1/CMA.3, 6/CMA.3, 1/CMA.5 and 4/CMA.4, para. 1.

Annex

Potential messages on outcomes of the seventh and eighth global dialogues proposed by Parties

- [The important role of industrial decarbonisation to accelerate global emissions reductions and drive sustainable industrial development, economic diversification, productivity growth, industrial competitiveness, technological innovation, and the creation of new economic opportunities and jobs, including through the development of emerging low-emissions industries and value chains]
- [The recognition on the range of low-carbon and zero-carbon technologies and approaches to advance industrial decarbonisation and green industrialisation, including energy efficiency, industrial electrification, renewable energy, low-emissions hydrogen and hydrogen derivatives, carbon capture, utilisation and storage, biofuels and other low-emission fuels, circular economy and material efficiency approaches, sustainable materials and low-emission feedstocks and digital technologies]
- [The challenges and barriers in accelerating industrial decarbonisation, including high capital costs, limited access to finance, infrastructure constraints and lock-in of high-emissions infrastructure, uncertain market demand, limited access to emerging technologies, regulatory uncertainty, workforce capability gaps, limited project preparation capacity and investment readiness, particularly in developing countries]
- [The value of integrated industrial strategies, systemic approaches, long-term planning at a national and regional level and for industrial hubs or clusters, sectoral road maps to support industrial transformation, reduce investment uncertainty and coordinate deployment of technologies, infrastructure and finance, taking into account different national circumstances and priorities]
- [The value of demand-side measures and market creation approaches, including public and private procurement, coordinated purchasing commitments, standards, certification systems, product definitions and other measures to create predictable and sustainable markets for low and zero carbon industrial products]
- [The synergies between energy transition and industrial decarbonisation, recognising that expanding renewable energy capacity, grid investment, interconnectivity and optimisation, energy storage solutions and efficiency measures can help to drive industrial transformation]
- [Recognition that industrial decarbonisation requires integrated, whole-of-systems approaches combining technological innovation, enabling infrastructure, supportive policy and regulatory frameworks, financing mechanisms, market creation and institutional capacity]
- [Recognition that many of the technologies and approaches required for industrial decarbonisation are already available, and calls on Parties to accelerate their deployment and commercialisation at scale]
- [The importance of expanding renewable energy generation, strengthening grid infrastructure, deploying energy storage systems, pursuing methane abatement and improving system integration in order to support increasing electrification of industrial processes and other zero- and low-emission technologies]
- [The important role of industrial clusters, eco-industrial parks and shared infrastructure, including electricity, hydrogen and CO2 transport and storage systems, in reducing costs, facilitating the deployment of emerging technologies, and achieving economies of scale]
- [The importance of long-term policy certainty, including where appropriate through policy frameworks anchored in law, together with structured dialogue between

governments and industry actors, to enable industrial investment and accelerate mitigation action]

- [The crucial role of carbon pricing, when applied as part of a broader policy package that includes investment support, demand-side measures and infrastructure development, in driving industrial emission reductions and mobilising finance for clean energy and innovation]
- [Recognition that the importance of creating demand for low-carbon industrial products through green public procurement, shared standards and definitions, product certification and long-term offtake arrangements]
- [Recognition that the need to strengthen institutional capacity, MRV systems, technical expertise, workforce skills and capacity-building, including through tailored skills training, knowledge-sharing and support for developing credible project pipelines and industrial transition plans]
- [The importance of just transitions, including social dialogue among governments, employers and workers to anticipate changes in the workforce, re-skilling, and benefit-sharing with Indigenous Peoples, as well as respect for the rights of Indigenous Peoples, including their free, prior and informed consent]
- [The importance of gender-responsive approaches, including addressing gaps in women's access to education, technical training and finance]
- [The importance of robust and interoperable data and measurement, reporting and verification systems for policymaking and for attracting investment, and the challenges, including the costs, of establishing and maintaining such systems]
- [The importance of international cooperation and access to means of implementation, including finance, capacity-building and technology development and transfer, technical assistance, and institutional support, particularly for developing countries]
- […]
