DRAFT TEXT
on

CMA 8 agenda item 11(g)
Work programme on climate finance, including on Article 9, paragraph 1, of the Paris Agreement in the context of Article 9 of the Paris Agreement as a whole

Version 15/11/2026 20:30

[*The Conference of the Parties serving as the meeting of the Parties to the Paris Agreement*,

Recalling Article [2 and] 9 of the Paris Agreement,

Further recalling Article 4, paragraphs 3, 4, 5, 7, 8 and [9] of the Convention, and Articles 2, 3, 4, 7, 8 and 9 of the Paris Agreement,

Also recalling decisions 1/CMA.6 [and 1/CMA.7[, in particular paragraph 54 thereof]],

Further recalling that the Paris Agreement, in enhancing the implementation of the Convention, aims to strengthen the global response to climate change in the context of sustainable development and efforts to eradicate poverty, and will be implemented to reflect equity and the principle of common but differentiated responsibilities and respective capabilities, in the light of different national circumstances,

Recognizing that Article 3 of the Paris Agreement recognizes the need to support developing country Parties for the effective implementation of the Agreement, and that the delivery of Article 9, paragraph 1, is crucial for the implementation of nationally determined contributions, taking into account the evolving needs and priorities of developing country Parties,

1. *Recognizes* that the provision of climate finance under the Convention and the Paris Agreement is grounded in the principles of equity and common but differentiated responsibilities and respective capabilities, in the light of different national circumstances, and that the obligations of developed country Parties regarding the provision of financial resources to developing country Parties, particularly those that are especially vulnerable to the adverse effects of climate change, remain grounded in Article 4 of the Convention and Article 9 of the Paris Agreement;

2. *Also recognizes* that, under Article 9, paragraph 1, developed country Parties shall provide financial resources to assist developing country Parties with respect to both mitigation and adaptation in continuation of their existing obligation under the Convention, including Article 4, paragraph 3;

3. *Further recognizes* the increasing urgency of the [evolving] financial needs and priorities of developing country Parties for the implementation of their nationally determined contributions,[and] national adaptation plans[and just transitions];

4. *Expresses* serious concern regarding the declining trajectory of international public finance at a time when the needs of developing country Parties, particularly for adaptation [and loss and damage], are increasing, noting the insufficiency, inaccessibility and very low availability of climate finance at levels commensurate with developing countries needs and priorities and in accordance with the obligations of developed country Parties under both the Convention and the Paris Agreement;

5. *Emphasizes* the importance of enhanced financial support according to Article 9, paragraph 1 of the Paris Agreement, to address the gap between current flows and the needs of developing countries, as well as to triple the outflows of the operating entities of the financial mechanism, the Adaptation Fund, the Least Developed Countries Fund and the Special Climate Change Fund, and to achieve the goal of tripling adaptation finance by 2035, without creating additional burdens for developing countries;

6. *Welcomes* the ongoing provision and mobilization of climate finance to developing countries and *affirms* that decision 1/CMA.7 on the new collective quantified goal is the key expression of the Article 9 commitment under the Paris Agreement for the years up until 2035;

7. *Emphasizes* the central role of financial support from developed country Parties, including grant-based and highly concessional financial resources, in supporting developing country Parties in implementing the Convention and the Paris Agreement;

8. *Resolves* to enhance the provision of financial resources provided by developed country Parties in a manner that demonstrates progression beyond previous efforts and responds to the needs and priorities of developing country Parties;

9. *Recalls* the recent advisory opinion of the International Court of Justice on the Obligations of States in Respect of Climate Change, which was adopted by the United Nations General Assembly, which provides further clarity on the legal obligations of States in the context of climate change, including those relating to international cooperation and climate finance;

Option 1:

10. *Decides* to launch the two-year work programme on climate finance, including on Article 9, paragraph 1, of the Paris Agreement in the context of Article 9 of the Paris Agreement as a whole, established by paragraph 54 of decision 1/CMA.7 (hereinafter referred to as the work programme), to be implemented from the end of this session to its tenth session or a [further] date agreed to by the CMA;

11. *Decides* that the work programme shall be conducted under the guidance of, and report to, the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement under a dedicated agenda item at each of its sessions during the work programme, in a Party-driven, inclusive and transparent manner, and in accordance with the scope, modalities and work plan set out in this decision;

Option 2:

12. *Welcomes* the appointment of Apollonia Miola and Yolando Velasco as co-chairs of the work programme on climate finance, including on Article 9, paragraph 1, of the Paris Agreement in the context of Article 9 of the Paris Agreement as a whole (hereinafter referred to as the work programme) in the first quarter of 2026, according to decision 1/CMA.7, paragraph 55, *expresses appreciation* to the co-chairs for facilitating the work programme, and *notes* the informal summary report by the co-chairs on the activities undertaken during 2026 under the work programme on climate finance;

13. *Takes note* of the progress made during the first year of the work programme including the exchanges held at SB 64 and *recognizes* the value of those discussions in advancing Parties' understanding of climate finance in the context of the implementation of the Paris Agreement;

14. *Reaffirms* the two-year timeline of the work programme, as agreed in decision 1/CMA.7, paragraph 54, and that it shall continue to be implemented in accordance with decision 1/CMA.7, *notes* that the work programme will conclude at the ninth session of the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement (November 2027), and *looks forward* to the second and final year of the work programme in 2027;

Option 3:

15. *Decides* that the duration and modalities of the work program can be adjusted in the future, subject to discussion and agreement among Parties;

Option 1:

16. *Decides* that the work programme shall focus on climate finance in relation to Article 9, paragraph 1, of the Paris Agreement, and its linkages and complementarity with Article 4, paragraphs 3, 4, 5, 7, and [9], of the Convention and with other provisions of the Paris Agreement, including:

(a) The role of Article 9, paragraph 1, in meeting the objective under Article 3 of the Paris Agreement,

(b) The role of Article 9, paragraph 1, in supporting the implementation of Article 4 of the Paris Agreement, in particular Article 4, paragraph 5,

(c) The linkage between Article 9, paragraph 1, and Article 7 of the Paris Agreement, the global goal on adaptation and the tripling of adaptation finance referred to in paragraph 53 of decision 1/CMA.7, and the role of public finance, highly concessional and grant finance for adaptation action by developing countries, in particular to implement national adaptation plans,

(d) The implications of Article 9, paragraph 5, of the Paris Agreement for the availability, accessibility and predictability of the financial resources provided by developed country Parties under Article 9, paragraph 1, with a view to verifying the adequacy of communications,

(e) Enhancing the predictability of financial resources through forward-looking information communicated under Article 9, paragraph 5, of the Paris Agreement, including disaggregated information on projected levels of public financial resources to be provided to small island developing States and least developed countries, building on the annex to decision 10/CMA.7;

(f) Support under Article 9, paragraph 1, to enable other means of implementation, including technology development and transfer and capacity-building, as well as gender and Action for Climate Empowerment,

(g) Appropriate burden-sharing arrangements among the developed country Parties included in Annex II to the Convention, as envisaged in Article 4, paragraph 3, of the Convention,

(h) Options for fiscal, monetary and budgetary enhancements in developed country Parties to enable the rapid and scaled commitment and disbursement of financial resources to the operating entities of the Financial Mechanism to the Convention [and the Adaptation Fund], taking into account ongoing and future replenishments and the full incurred costs of implementing the nationally determined contributions and national adaptation plans of developing country Parties;

(i) Achieving a balance between adaptation and mitigation in the provision of scaled-up financial resources, taking into account the priorities and needs of developing country Parties, especially those that are particularly vulnerable to the adverse effects of climate change and have significant capacity constraints, such as small island developing States and least developed countries, considering the need for public and grant-based resources for adaptation, consistent with Article 9, paragraph 4, of the Paris Agreement;

(j) Support for averting, minimizing and addressing loss and damage, taking into account paragraph 50 of decision 1/CMA.7, in the context of Article 9 of the Paris Agreement as a whole and consistent with Article 8 of the Paris Agreement and complementarity with the funding arrangements for responding to loss and damage, including the Fund for responding to Loss and Damage;

(k) The scale of financial resources provided and the instruments, channels and sources through which they are provided, including allocations to small island developing States and least developed countries, and the timelines for their delivery, taking into account decision 1/CMA.6;

(l) The gaps between commitments, pledges and disbursements;

(m) Efficient access to financial resources through the operating entities of the Financial Mechanism, the Adaptation Fund, the Least Developed Countries Fund and the Special Climate Change Fund, consistent with Article 9, paragraph 9, of the Paris Agreement, including resource mobilization, minimum allocation and direct access for small island developing States and least developed countries, and the reduction of accreditation and application burdens;

17. *Further decides* that the work programme shall function in a manner that is consistent with the procedures and timelines for the communication of successive biennial transparency reports under the Paris Agreement, established by Article 13, paragraph 1 of the Paris Agreement and contribute to other ongoing work and processes under the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement, such as the global stocktake referred to in Article 14 of the Paris Agreement, and the review of modalities, procedures and guidelines under the enhanced transparency framework;

18. *Decides* that the work programme aims to help address the persistent shortcomings in the provision and delivery of climate finance and support a course correction in how climate finance reaches developing countries;

19. *Decides* that the work programme must remain firmly grounded in the existing obligations and commitments under the Convention and the Paris Agreement and should not create ambiguity regarding the responsibilities of developed country Parties for the provision of climate finance to developing countries;

20. *Further decides* that the work program will address the quality, predictability, and accountability of climate finance and should contribute to the effective implementation of existing climate finance commitments and goals, including supporting the implementation of the new collective quantified goal on climate finance, the tripling of financial flows through the operating entities of the financial mechanism, and the tripling of adaptation finance, and confront the current direction of climate finance flows, aiming to help drive a concrete course correction, particularly with regard to grant-based financing for LDCs so that finance flows match the scale and urgency of implementation;

21. *Decides* that the work programme should assess the delivery of finance under Article 9, paragraph 1, and should cover what has been delivered, what remains undelivered, what constraints continue to prevent full implementation, and how recent developments, including withdrawals from the Paris Agreement and its Financial Mechanisms and reductions in pledges and contributions, affect the ability of developing countries to implement ambitious climate action, noting that progress should be assessed not only by amounts pledged, committed or mobilized, but also by the extent to which finance is actually disbursed in a timely manner and reaches developing countries to address their climate needs and priorities;

22. *Decides* that the work programme will discuss the operationalization of the CMA's decision to urge the operating entities of the Financial Mechanism and other Funds to at least triple their annual outflows by 2030, with a significant increase of public grant based and highly concessional resources provided through the funds;

Option 2:

23. *Reaffirms* that, in line with decision 1/CMA.7, paragraph 54, the scope of the work programme is climate finance, including on Article 9, paragraph 1, of the Paris Agreement in the context of Article 9 of the Paris Agreement as a whole;

24. *Affirms* that the climate finance work programme constitutes an important space for the informed, inclusive and structured consideration of climate finance, including Article 9, paragraph 1 in the context of Article 9 as a whole, and *stresses* the importance of ensuring continuity and coherence in this work;

25. *Decides* that the purpose of the work programme is to discuss how to steadily advance the implementation of the new collective quantified goal as the agreed framework that embodies the implementation of Article 9 in its entirety, including Article 9, paragraph 1;

26. *Decides* that discussions under the work programme should focus on the new collective quantified goal as a whole and that, within that context, adaptation finance can naturally be addressed, *noting* that the efforts called for at COP30 to scale up adaptation

finance were established in the context of the new collective quantified goal; *further recalls* that the new collective quantified goal contains qualitative elements, including aspects related to accessibility, and that the work programme should facilitate the exchange of information, insights and ideas that can facilitate the effective implementation of these various elements through the operation of the work programme;

27. *Decides* that deliberations under the work programme will discuss:

(a) How the collective goal of mobilizing USD 300 billion annually by 2035 can be achieved in a sustainable manner using diverse sources of finance (sustainability of finance);

(b) How those financial resources can be used efficiently and effectively (effective use of finance); and

(c) How finance can be delivered to those countries and communities with the greatest needs, including LDCs and SIDS (access to finance);

28. *Decides* that the work programme covers mitigation and adaptation finance, international and domestic finance, including enabling environments, and a wide variety of sources, public and private, bilateral and multilateral, including alternative sources, and finance from existing and new contributors;

29. *Decides* that the work programme will focus on structural barriers for adaptation finance and draw lessons from practical experiences, including how stable public support, long-term planning, and stronger institutional capacity can make adaptation projects more bankable and attractive to investors;

30. *Emphasizes* that all activities and outputs should be guided by the framework agreed to in decision 1/CMA.6, including with a view to promote the inclusion and extension of benefits to vulnerable communities and groups in climate finance efforts, including women and girls, children and youth, Indigenous Peoples, persons with disabilities, local communities, migrants and refugees, climate-vulnerable communities and people in vulnerable situations, in line with decision 1/CMA.6, paragraph 26;

31. *Also decides* that the work programme is without prejudice to the process for the implementation of the new collective quantified goal on climate finance[1];

Option 1:

32. *Decides* that the work programme shall be implemented through the following modalities:

(a) Submissions from Parties and observers on the elements referred to in paragraph X above, in accordance with the work plan in the annex,

(b) A technical paper prepared by the Secretariat, under the guidance of the co-Chairs of the work programme, before the sixty sixth sessions of the subsidiary bodies (June 2027), on the matter referred to in paragraph X below, drawing on existing sources, including biennial transparency reports, biennial communications under Article 9, paragraph 5, of the Paris Agreement and reports of the Standing Committee on Finance, and without duplicating them, including:

(i) A mapping of existing obligations under Article 9, paragraph 1, of the Paris Agreement and relevant decisions of the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement;

(ii) The gaps between commitments, pledges and disbursements;

[1] Decision 1/CMA.7, para. 54, footnote 5: "Without prejudging the process for the implementation of the new collective quantified goal on climate finance." https://unfccc.int/sites/default/files/resource/cma2025_19_a01.pdf

(iii) Information on the instruments, channels and sources of financial resources provided, disaggregated by region, including for small island developing States and least developed countries;

(iv) Information on public and grant-based resources provided for adaptation, and on actions taken to prioritize small island developing States and least developed countries, consistent with Article 9, paragraph 4, of the Paris Agreement;

(v) Information on financial resources provided for averting, minimizing and addressing loss and damage;

(vi) A synthesis, drawing on the compilation and synthesis of biennial communications prepared by the secretariat and the summary reports of the biennial in-session workshops under decision 12/CMA.1, of forward-looking information communicated under Article 9, paragraph 5, of the Paris Agreement, in accordance with the annex to decision 10/CMA.7, including the extent to which it has provided predictability for developing country Parties, in particular small island developing States and least developed countries;

(vii) Actions taken by the Operating Entities of the Financial Mechanism and including the Adaptation Fund, the Least Developed Countries Fund and the Special Climate Change Fund to simplify access, including timelines from submission to approval and disbursement, and a qualitative analysis of barriers to access;

(c) Two negotiations sessions per year, held in conjunction with the sessions of the subsidiary bodies, the themes and agenda of which shall be agreed in consultation with Parties on the basis of the work plan in the annex,

(d) Consideration of the work programme at each session of the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement during the work programme, under the agenda item referred to in paragraph X above,

(e) Two technical workshops per year under the work programme, including at least one regional workshop per year, designed around developed country Parties included in Annex II, with equitable and balanced participation of developed and developing country Parties,

(f) Factual summary reports of each workshop, prepared by the co-chairs of the work programme with the support of the secretariat, reflecting the views expressed by Parties [to inform CMA deliberations],

(g) An annual high-level ministerial event [in conjunction [with the subsidiary bodies in their June sessions]][with the first jointly held with the biennial high-level ministerial dialogue on climate finance convened under decision 12/CMA.1 during the ninth session of the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement in 2027, and with the tenth session of the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement in 2028];

33. *Further decides* that it must ensure meaningful participation of SIDS and LDCs, whose particular circumstances and experiences should inform the discussions and the identification of practical solutions;

34. *Also decides* that the work programme should draw on existing technical expertise and institutional knowledge under the Convention and the Paris Agreement, including the work of the Standing Committee on Finance and the operating entities of the Financial Mechanism;

Option 2:

35. *Decides* that the work programme [in its second and final year] will [include][convene] [three] in-session [mandated events [at the sixty-six session of the subsidiary bodies],] [workshops,] [three mandated events at the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement at its ninth session] and [intersessional] submissions [on [related thematic areas][the themes outlined in paragraph X]] [and [that one meeting of the work programme is to be held in virtual format or in

conjunction with the first regular sessions of the subsidiary bodies of the year][virtual dialogues, as appropriate]];

36. *Also decides* that the work programme is organized in an open, transparent and inclusive manner, be open to all Parties, and engage all actors, including governments and financial and non-financial sector actors;

37. *Requests* the co-chairs of the work programme on climate finance to develop a further workplan in line with the modalities outlined in paragraph X above, taking into consideration the submissions referred to in paragraph X;

38. *Invites* Parties, the UNFCCC constituted bodies, the operating entities of the Financial Mechanism, international financial institutions, observers and other stakeholders, including from the private sector, to submit views on the organization and focus of the work programme in 2027 via the submission portal by 28 February 2027;

Option 1:

39. *Decides* that the themes and topics to be discussed under the work programme will be in line with the scope of the work programme, as contained in paragraph X above, and the work plan as contained in the annex;

Option 2:

40. *Decides* that the work programme, in 2027, will, inter alia, include:

(a) Consideration of the provision and mobilisation of public finance in line with the new collective quantified goal on climate finance, including finance mobilised under Article 9, paragraph 1, in the context of Article 9 of the Paris Agreement as a whole,

(b) Consideration of the goal of at least USD 300 billion per year by 2035 for developing country Parties for climate action, as agreed in decision 1/CMA.6, in the context of Article 9 of the Paris Agreement,

(c) Consideration of scaling [of][up] adaptation finance [in line with the calls for efforts to at least triple adaptation finance by 2035 in the context of decision 1/CMA.6],

(d) A workstream on broadening the contributor base and the effective implementation of Article 9, paragraph 2 of the Paris Agreement to facilitate the enhanced provision and mobilization of climate finance,

(e) Consideration of accelerating the ongoing establishment of new and innovative sources of finance, including taxation, for implementing climate action and thus enabling the scaling down of harmful incentives,[2]

(f) Discussions on innovative and alternate sources of finance, including international carbon levies and international and domestic carbon pricing schemes facilitating and consistent with low-emission and climate resilient development pathways,

(g) Exploring ways to best leverage new and innovative sources and instruments of finance, including to scale up private finance,

(h) Discussions on enhanced mobilization of private finance, involving key non-Party stakeholders, such as the insurance sector, financial institutions, energy, consumer good and trading sectors to address matters related to mitigation and adaptation finance,

(i) Consideration of [enhancing efficient and effective] access to [bilateral, regional and multilateral] climate finance [for developing countries][, in line with country-driven strategies and plans][, including addressing barriers and simplifying and streamlining access],

(j) Consideration of [enhancing] enabling environments [[and policy frameworks][, in a nationally determined manner, with a view to increasing climate

[2] Paragraph 96 from 1/CMA.5.

financing, including through voluntary contributions and South-South cooperation][to facilitate the mobilisation and effective deployment of climate finance]],

(k) Discussions on financing the transitioning away from fossil fuels,

(l) Discussions on domestic finance and enabling environments to scale up climate finance,

(m) Discussions on possible ways to consolidate the climate finance landscape and reducing the number of funds to facilitate enhanced access, in particular for LDCs and SIDS;

41. *Further decides* to convene, in the second and final year of the climate finance work programme in 2027, in-session work, including a workshop, with a focus on adaptation finance;

42. *Requests* that the work programme avoid duplication with other ongoing processes under the UNFCCC, including the implementation arrangements relating to the New Collective Quantified Goal on climate finance, and should complement these processes by addressing persistent implementation gaps and identifying practical improvements in the provision and delivery of climate finance;

Option 1:

43. *Decides* that the work should lead to negotiated recommendations and a substantive CMA outcome that strengthens the effective implementation of Article 9, paragraph 1;

44. *Decides* to launch, under the guidance of the Presidencies of the seventh, eighth, ninth and tenth session of Conference of the Parties serving as the meeting of the Parties to the Paris Agreement, in consultation with Parties, an action plan, detailing policies, actions, deliverables and milestones through to 2035, on enhancing ambition and strengthening the implementation and delivery of Article 9, paragraph 1, to enable the scaled-up provision of highly concessional and grant-based support by developed country Parties for the implementation of their national plans, for consideration by the Parties at the ninth session of Conference of the Parties serving as the meeting of the Parties to the Paris Agreement;

45. *Decides* that the action plan shall be progressively updated on the basis of the outcomes of the technical and regional workshops and the high-level ministerial events referred to in paragraph X above, and relevant inputs from constituted bodies;

46. *Decides* that the work programme is to establish a needs-based quantum that reflects the actual or projected climate finance requirements in the context of the at least USD 1.3 trillion call to scale up, to meet the 1.5°C climate goal and adequately finance the NDC and NAPs, and must deliver a clear and transparent burden-sharing methodology that translates collective financial targets into individual, quantifiable obligations for developed country Parties in order to meet the at least USD 1.3 trillion climate finance needs;

47. *Decides* that the work programme will:

(a) Adopt an action plan with clear milestones and timelines for delivering Article 9, paragraph 1, distinguishing finance pledged, approved and disbursed by developed countries, with no backtracking on pledges and contributions,

(b) Operationalize the CMA's decision to at least triple annual outflows from the Operating Entities of the Financial Mechanism and other Funds by 2030, through predictable, timely and ambitious contributions from developed countries to their Trust Funds,

(c) Set out how developed countries will deliver the goal of at least tripling adaptation finance by 2035 through new, additional and grant-based public finance,

(d) Scale up public finance on grant and highly concessional terms for both adaptation and mitigation, with grants prioritized for adaptation and loss and damage,

(e) Ensure simplified, faster and direct access, with transparent financing procedures applied equitably to all non-Annex I Parties and dedicated attention to underserved developing country parties;

48. *Decides* that the work programme is to establish clear safeguards against debt traps by prioritizing non-debt-creating financial instruments as the primary vehicle for Article 9, paragraph 1 support, specifically, grant-based and ultra and/or highly concessional forms of financing, noting that climate finance must not exacerbate the fiscal distress of vulnerable nations and must remove the structural barriers to the implementation of the development priorities of these nations;

Option 2:

49. *Decides* that the work programme will be operationalized through focused exchanges of views, information and ideas,[with a view to enhancing the implementation of Article 9 of the Paris Agreement as a whole,] noting that the outcomes of the work programme will be non-prescriptive, non-punitive, facilitative, respectful of national sovereignty and national circumstances, [and] [will take into account the nationally determined nature of nationally determined contributions and] will not impose [new financial commitments][additional obligations or reporting burdens] new targets or goals [burden-sharing arrangements][the establishment of sub-goals][any separation of Article 9, paragraph 1, from the new collective quantified goal] [, while recognizing existing obligations and commitments under the Paris Agreement and decision 1/CMA6];

Option 1:

50. *Decides* to consider the outcomes of the work programme at its tenth session with a view to adopting a decision on the effective implementation of the work programme and its extension;

Option 2:

51. *Requests* the co-chairs referred to in paragraph X above to prepare a report [on the deliberations under the work programme, including on matters that remain unresolved,][following the conclusion of the work programm] for consideration at the ninth session of the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement;

52. *Notes* that the outcomes of the work programme may serve as an input, as appropriate, to the biennial report of the SCF of collective progress in implementing decision 1/CMA.6, the first of which is due in 2028, without prejudice to the mandate of the SCF and the enhanced transparency framework;

53. *Further notes* that the first new collective quantified goal reporting cycle in 2028 and outcomes from the second global stocktake will provide an important basis for assessing progress, together with the outcomes of this work program, on the less developed areas of Article 9, thereby helping ensure parties are well informed and better positioned to ensure the delivery of climate finance work;

54. *Recalls* paragraphs 17 and 18 of decision 1/CMA.6, and the call for efforts to at least triple adaptation finance by 2035 in the context of decision 1/CMA.6 as stated in paragraph 53 of decision 1/CMA.7;

55. *Recalls* the executive summary of the 2023 report on the doubling of adaptation finance;

56. *Recognizes* that a common understanding of the reference level, and of the methodologies for monitoring and reporting, is necessary for transparency, predictability and the effective review of progress, including in the context of decision 2/CMA 5;

57. *Decides* to deliver an implementation pathway to at least triple adaptation finance by 2035, as referred to in paragraph 53 of decision 1/CMA.7, with developed country Parties taking the lead, with a view to achieving a balance between adaptation and mitigation in the

provision of scaled-up financial resources, in line with Article 9, paragraphs 1 and 4, of the Paris Agreement, paragraph 18 of decision 1/CMA.3 and paragraph 34 of decision 12/CMA.7;

58. *Also decides* to consider, at its ninth session (November 2027), the implementation pathway referred to in paragraph X above, including indicative milestones, with a view to its adoption;

59. *Underscores* the need for an agreed baseline, and for a common understanding of the methodologies for monitoring and reporting, for transparency, predictability and the effective review of progress;

60. *Urges* developed country Parties to increase the trajectory of their collective provision of climate finance for adaptation to developing country Parties from 2026, including by pursuing efforts to at least triple annual outflows from the multilateral climate funds referred to in paragraph 16 of decision 1/CMA.6;

61. *Invites* Parties and observers to submit via the submission portal, by [XXX date], their views on:

(a) Options for the reference level and base year for the tripling;

(b) The scope of finance to be counted, including the treatment of public and private finance, finance provided and mobilized, instruments, and grant-equivalent accounting;

(c) Methodologies for attributing multilateral outflows to developed country Parties and for avoiding double counting;

(d) Arrangements for monitoring and reporting on progress, including the use of information reported under the enhanced transparency framework and in biennial communications under Article 9, paragraph 5, of the Paris Agreement;

(e) Linkages with the tracking of paragraph 16 of decision 1/CMA.6 and with the Baku Adaptation Roadmap;

62. *Requests* the secretariat to prepare, drawing on the submissions referred to in paragraph X above, biennial assessments, reports under the enhanced transparency framework and other relevant sources, a technical paper on options for the reference level and for methodologies for monitoring and reporting on the tripling, including the quantitative implications of each option;

63. *Requests* the secretariat, subject to the availability of financial resources, to organize, in conjunction with the sixty-sixth sessions of the subsidiary bodies (June 2027), a workshop on the matters referred to in paragraph X above, with the participation of Parties, the Standing Committee on Finance, the Adaptation Committee, the operating entities of the Financial Mechanism, the Adaptation Fund, multilateral development banks and observers, and to prepare a summary report thereon;

64. *Encourages* developed country Parties to provide, in their next biennial transparency reports and biennial communications under Article 9, paragraph 5, of the Paris Agreement, information on adaptation finance disaggregated as referred to in paragraph X(e) above, and on their plans for increasing adaptation finance to 2035;

65. *Requests* the [CMA][climate finance work programme] to consider, at [its nineth session][the sixty-seventh session of the subsidiary bodies], the submissions, technical paper and workshop report referred to in paragraphs X-X above[, as well as the relevant outcomes of the work under the global goal on adaptation, including the Belém Adaptation Indicators], with a view to [decide the following][recommending a draft decision for consideration and adoption at the ninth session of the CMA (November 2027)] on:

(a) The reference level for the tripling referred to in paragraph 53 of decision 1/CMA.7,

(b) Methodologies for monitoring and reporting on progress toward the tripling, and

(c) Arrangements for the regular review of progress, including the role of the Standing Committee on Finance;

66. *Requests* the Standing Committee on Finance to include, commencing in 2028, in the report referred to in paragraph 30 of decision 1/CMA.6, information on the qualitative and quantitative progress made toward the tripling, considering relevant information in line with paragraphs 123–125 of decision 18/CMA.1 and decision 5/CMA.3, as well as recommendations on methodologies for tracking adaptation finance, taking into account the targets of the United Arab Emirates Framework for Global Climate Resilience and the Belém Adaptation Indicators;

67. *Takes note* of the estimated budgetary implications of the activities to be undertaken by the secretariat referred to in paragraphs X above, noting budgetary constraints within the UNFCCC system and the need for activities under the work programme to remain within existing budgetary constraints;

68. *Requests* that the actions by the secretariat called for in this decision be undertaken subject to the availability of financial resources.]

Annex - work plan

Timeline	Outcomes
Feb 2027	**First Technical Dialogue** on [a] Role of Article 9.1 in Implementation of Paris Agreement with a focus on the interlinkages of Article 9.1 with other provisions of the UNFCCC and the Paris Agreement - Articles 4.3 and 11 of UNFCCC, Article 3, Article 4, , 7, 8, 10 and 11 of Paris Agreement. [b] Quantitative and Qualitative review of finance provided by developed country Parties under Article 9.1: Instruments, channels, and concessionality of the finance provided by developed countries under Article 9.1
June 2027: on the sidelines of SB Session	**[1] First High-Level Ministerial** on the Legal Character of Article 9.1 as a mandatory provision and its implementation. **[2] Second Technical Dialogue** on [a] the need for improving the disbursement processes in developed countries to implement Article 9.1 and [b] how the implementation of Article 9.1 must be reflected through Articles 9.5 and 9.7 and assessed thereof for greater predictability and transparency [3] Workshop on Tripling of adaptation Finance
